PROFESSIONAL SUMMARY

Frontend Developer with strong experience building modern, responsive web applications using React and Next.js. Skilled in developing scalable UI systems, integrating APIs, and creating interactive user experiences. Passionate about clean code, performance optimization, and building production-ready web applications. Seeking an opportunity to contribute to real-world frontend systems and grow within a collaborative engineering team.

Technical SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React, Next.js, TypeScript.
- Styling/UI: Tailwind CSS, CSS Grid/Flexbox.
- APIs & Data: REST APIs, GraphQL (basic), JSON handling.
- Tools: Git, GitHub, Vite, Lighthouse, Netlify.

Selected Projects

Locky Supermarket Web Platform (Featured Project)

Tools used: Next.js, TypeScript, React, Tailwind CSS

- Built a multi-page supermarket platform with interactive storefront, careers portal, store locator, and supplier onboarding system
- Designed a responsive, production-style UI using Tailwind CSS and modern layout systems
- Implemented smooth UI interactions and optimized frontend structure for scalability
- Deployed live on Netlify

GitHub: <https://github.com/Webkingif/LockySupermarket>

Minimum Spanning Tree Visualizer

Tools used: React, Next.js, TypeScript, Tailwind CSS, Cytoscape.js

- Developed an interactive graph algorithm visualizer for Kruskal's and Prim's algorithms
- Built real-time UI interactions for graph construction and algorithm execution
- Designed to help users understand complex data structures visually
- Implemented performance-focused rendering for dynamic graph updates

GitHub: <https://github.com/Webkingif/Minimum-span-tree>

Habit Tracker Application

Tools used: Next.js, React, TypeScript

- Built a habit tracking application for monitoring daily streaks and productivity

- Implemented state management for tracking user progress
- Designed a clean and responsive UI for mobile and desktop users
- Focused on simplicity and usability for daily interaction
